

Job Title: Journeyman Electrician

General Summary: Sheridan Electric Services, a Mississauga-based electrical company that services the industrial field, is seeking an experienced and highly motivated individual for the position of Journeyman Electrician. The person needs to have at least 5 years Canadian experience as a 309A certified electrician serving the industrial and commercial sectors.

Essential Job Functions:

- Installation of power distribution systems including but not limited to electrical breaker panels, transformers motor control cabinets, conduit, lighting, and main service installations.
- Service and maintenance of existing electrical systems as needed, including main switch gears, transformers, motors and the like. Good troubleshooting skills and experience are required.
- Ensuring all installations meet Canadian and Ontario electrical code requirements.

Education and Experience Required:

- 5+ years of experience with 309A Master Licence (a 442 license only will not suffice) in the industrial or commercial sectors.
- A very strong working knowledge of the Ontario Electrical Code (individuals will be tested on their code strength)
- Strong organizational and communication skills so as to properly communicate with and understand the customer.
- Clean driving record
- Excellent safety record.

Sheridan Electric is an equal opportunity employer and we believe that our people are our greatest asset and most important investment. Your employment includes a great benefit package, work uniforms, education opportunities and a stable work environment with the opportunity to advance your knowledge and current skill set.
